SEDALIA, MISSOURI, TUESDAY OCTOBER 4, 1892.

PRICE, FIVE CENTS.

A JEWELER ROBBED.

A TRAY OF DIAMONDS TAKEN IN BROAD DAYLIGHT.

The Loss Not Discovered Before the Thieves Have Time to Make Their Escape.

The jewelry store of Charles L. Taylor was robbed of a tray containing twenty-four diamond rings valued at \$1,000, yesterday afternoon.

Mr. Taylor was alone in the store when two men entered and one of them asked him for a package he had left in there a short time before, he said it was put in the back part of the store. Mr. Taylor suspecting nothing wrong stepped back to look for it. One of the men followed him and appeared very anxious for him to look behind a partition for the package, while the other remained standing near the center of the store, leaning against the show case.

Finally thinking that everything was not as it should be Mr. Taylor turned around and told the man that he would have to come back when the clerk was in; he noticed at the same time that the second man had left the store.

Shortly after the departure of the two men Mr. Chas. H. Bard, the clerk, came in, and having a customer who desired to purchase a ring, he opened the case and discovering the absence of the diamond tray, asked his employer what had become of it. Mr. Taylor at once suspected the two men and notified Marshal De Long of his loss, giving the following description of the two men:

The one that did the talking was a small man, scrawny in appearance, dressed in an ordinary suit of dark clothing, with mustache and a two weeks' growth of beard on his face. The man that evidently extracted the tray from the case was a man of middle age, medium height, heavy compact build, with smooth face and ruddy complexion and wearing a blue suit of clothing with an overcoat thrown or rather hanging over his left shoulder so that his left arm was not visible.

Messrs. Taylor and Bard are of the opinion there were three men in the gang, as there was a third man seen with the two described above, in the morning. Mr. Bard gives the following description of him: A man six feet in height, slender build, wore a long mustache, a brown derby hat, also a loose scarf fastened with a Roman gold horse-shoe pin.

The men were hanging around the store all day and were in it several times talking to Mr. Bard, one wanting a watch repaired, another wishing to buy a watch-chain, while the third wanted a lantern. They were also seen in Bichsel's and Townsley's jewelry stores, and these gentlemen could very likely identify them if captured.

The police kept a sharp lookout for the men in the afternoon and are satisfied that they could not have left the city on any of the trains. They located them at the Palace hotel but they had paid their board and left.

A man came in from Clifton this morning and said that three men answering the descriptions given had taken supper at his house last night and had then gotten on the north bound train. They did not act particularly suspicious and not

having heard of the robbery here, he did not think of anything being wrong with them.

Telegrams have been sent out notifying all officers to look out for these men and this with a reward of \$500, ought to result in their capture.

POLICE COURT.

A Number Doomed by Circus Whisky and Appear in Court.

Circus day was too much for the rounders, and as a consequence a number of them bowed up and were knocked out. Judge Rauck proceeded to dispose of them in short order when they were brought before him to-day.

Rosa Goodwin, a colored damsel, was the first one called, and she answered "guilty" to the charge of intoxication. The cost of that one little word, whispered gently, was \$5.

Lew S. Kimmer, John Henry Summers, J. Bradley and Thomas Sullivan, all answered to the call and received a \$5 fine.

Will Witcher was up charged with beating his wife because she would not get his dinner for him on circus day. He said not guilty, but the judge thought it best to give him a chance to ponder on the error of his ways, so he was fined \$7.

George Jones and Robt. Stewart, two vags, were granted a stay to leave town.

TRACK FOREMEN.

Opening Session of the International Brotherhood.

From the Kansas City Journal. The annual convention of the International Brotherhood of Railway Track Foremen opened yesterday morning at Industrial hall, corner of Eleventh and Main streets. Between ninety and one hundred delegates were present. Mayor Cowherd delivered the address of welcome and his brief remarks were well received. James P. Dow conducted the opening exercises and afterwards delivered a brief address.

Grand Chief Wilson followed with a review of the history of the order and the unexampled progress made. The appointment of a committee on credentials wound up the morning session. In the afternoon the committee reported and the preliminary work of organization was gone through with. The regular work of the convention will begin to-day.

The Prohibitionists.

Monday afternoon the prohibitionists met in council at the court house. The business transacted related to the preparation of their petition to the county court. The executive committee have arranged for Colonel Sobieski, the prohibition candidate for governor, to speak at the court house on the evening of October 19th, and a reception committee was appointed, consisting of E. E. McClellan, C. E. Christiansen and Wm. McCluney. The chairman was notified that McKee's chapel could not be opened for public speaking, and it was proposed that the meeting announced for McKee's chapel next Thursday evening, shall be an open air one. E. E. McClellan, Doc Gross and Van B. Wisker will be the speakers.

Richard Anderson Buried.

The funeral services of Richard Anderson took place at the St. Vincent de Paul Catholic church this morning. A large number joined in paying their last respects to a beloved friend and the eloquent tribute paid the young man by Rev. Father Murphy was repeated in the heart of every one present.

Will Do the Advertising.

The services of J. J. Coats have been secured by the fair association for the purpose of advertising the races on Oct. 25th. No more genial fellow than Jack Coats could have been gotten and there is no doubt but what he will do all he can to make it a successful meeting.

To Terre Haute.

"A Texas Steer" company left last night for Terre Haute, Ind., where they show to-night. When you consider the jumps made by this company, it is wonderful how they keep up under the constant strain.

To Kansas City.

The Sedalia Republican Flambeau club left on a special train this morning at 9 o'clock, for Kansas City. Quite a party went with them being induced to do so by the low rates offered.

ST. OMER COMMANDERY, NO. 11, K. T., will hold a stated convocation tomorrow, Tuesday evening, Sept. 20th, at 7:30 o'clock. Matters of importance will be brought up. Visiting Fraters are courteously invited to attend. By order of H. G. CLARK, E. C. J. H. MARA, Recorder.

WHAT PUZZLED THE TRAMPS.

The Idea of Strikers Preventing Other People from Going to Work.

"Say, Bob," said the tramp to his companion, who was sharing with him the grateful shade of a spreading oak tree, near which a New York Herald man stood, "I can't tell what makes dese yer strikers want to stop under fellers from workin'. I ain't never had no temptashum to make a man quit work. I like to see a man work. When I lays down to smoke my pipe and take life easy dere ain't nothin' what makes me feel so good all over as to concentrate my wishun on some fellow wot's sweatin' an' slavin' out in de hot sun for his daily bread. It just makes me feel contented wid me lot. By gum! dis yer's a free country, an' wot I say is de man wot wants to work ought to be allowed to work, an' I'm dead agin any man wot tries to stop him."

"You're dead right," rejoined Bob in the same philosophic strain, "but I tell yer human natur' is a mighty queer an' uncertain sort o' thing, an' de more I sees of it de less I understands it. Now, dere's you an' me. Live an' let live is our motto, an' we lives up to it. We never try to stop nobody from workin', an' we never try to make nobody work wot's got constitutional scruples ag'in it. We jes' goes our own way rejicin' an' bearin' in mind de scriptural injunction about God helpin' dem wot helps demselves. We helps ourselves whenever we gets a chance. But dere's lots of people in dis world wot don't respect our rights not to work 'cause we don't feel like it, an' dey wants to make us work. Now, I hold dat we's got jes as much right to order people to stop work as dey's got to order us to go to work. Wot's de use of livin' in a free country if you can't do wot you please?"

But those last words were lost on the first speaker, for he had fallen asleep.

SULLIVAN AFTER CORBETT.

The Ex-Champion Insinuates That He Was Thrown Down.

A Boston special dispatch says that John L. Sullivan has startled his friends in that city by announcing his intention of challenging Corbett to fight again. He was seen by a reporter last night and had this to say:

"I am saving money now with a resolute determination to challenge Corbett to fight again and give me a chance to win back the money that was robbed from me in New Orleans."

"By robbery you mean that you were drugged?"

"There was something wrong. I am not making any direct charges just now, but that I was not right I know. After the first rounds I could see half a dozen Corbets, and as good a man as Corbett is, I don't believe he or any one else living can stand up and fight me twenty-one rounds without being hit."

"There was a scheme on foot to break what seemed to the pool room men as a dead sure combination—McAuliffe, Dixon and Sullivan—and I was the one selected to be thrown down."

Demand Entrance to White Schools.

GUTHRIE, Ok., Oct. 3.—Although the territorial laws provide for separate schools for negro children, the negroes demand that their children be admitted to the white schools. The matter is now before the court.

Friday at Kingfisher forty negro children, backed by a crowd of adults, entered a white school and took seats and it was necessary to use force to remove them. Negro preachers are advising their people from the pulpit to use force if necessary to sustain their demand.

And Pettis, Too.

From the Democrat-News. Hon. W. M. Walker has received a late letter from O. A. Crandall, president of the north and south railroad. In it he says:

"Our negotiations with contractors and for the sale of bonds are reaching the culminating point, and it behooves us to be ready with our subsidies and right of way at the earliest day possible, for we are at any time liable to be called upon to show our notes to men ready to put the money into the work."

That being the case, Saline had best bestir herself. She can and will raise her part of the money and everybody knows the incalculable value of such a road.

CITY COUNCIL.

The Marshal Allowed a Clerk—Curbing on Third Street Reported Complete.

The council met last night in regular session, with Acting Mayor Hutchinson in the chair. Councilmen Bosserman, McKenzie, Deckman and Honkomp were present.

The first thing considered was the appointment of a clerk for the chief of police. This clerk is to remain in the office at all times and to receive notices of robberies, disturbances and whatever complaints the citizens may have to make. The council decided that there should be one, and in future police headquarters will be in the city recorder's office.

An invitation to join in the parade on German day was received and accepted.

The city engineer reported the completion of the Third street curbing and the city clerk was ordered to issue tax bills.

Reports of city officers for the

was such as only is to be found in Chas. H. Hoyt's plays and the success of the performance last night is a guarantee of a crowded house for this company whenever in the city.

A TARIFF HEADACHE.

Senator Vest Puts His Fist Into McKinley's Eye.

Senator Vest in North American Review. The most important fact elicited from the reciprocity discussion is the concession by its advocates that the American manufacturer can successfully compete with the English manufacturer in the South American markets with a protective duty in his favor of from 4 to 12½ per cent., while at the same time in this country the McKinley act gives the same American manufacturer protective duties ranging from 25 to 100 per cent., to enable him to take the market on the same goods from his English competitor. The greatest advantage given under the

month of September were received, read and placed on file.

A number of bills were allowed and warrants ordered drawn, after which council adjourned.

Barber Shop Leased.

The barber shop on East Third street formerly owned by Charley Moffitt, was sold yesterday to satisfy a lien held by a former employee. John Wyatt, lately with Charley Whisman, has leased the shop and will start out for himself. Jack is an artist at his business and will be sure to get there.

City Hospital.

An important meeting of the ladies having in charge of the building the Sedalia city hospital was held at the Commercial club rooms at 3 o'clock to-day. The purchase of grounds for the building were considered and steps will be taken at once toward the completion of the project.

A Texas Steer.

A crowded house greeted the second return of "A Texas Steer" to Sedalia last night. The show is full of charming features and the acting of Tim Murphy would make a statue smile. He is imitable as Maverick Brander, the congressman who tries to follow in Daniel Webster's footsteps. The entire cast

reciprocal arrangement with Brazil to the American importer on manufactures of iron, cotton, leather and rubber, amounts to a discrimination of 12½ per cent. in his favor, yet the McKinley act gives protective duties on the same articles in the United States, amounting in some instances to 100 per cent. If reciprocity has successfully operated in Brazil and elsewhere with discriminating duties in favor of the American importer of from only 4 to 12½ per cent., the same importer paying heavy freight from New York to Rio, a distance of 6,700 miles, is not the imposition of duties of 25 to 100 per cent under the McKinley act a fraud and outrage? In other words, if our manufacturers can only compete at home with a protective duty of from 25 to 100 per cent., how can they pay transportation charges on the same goods for nearly 7,000 miles, and with a discriminating duty of from 4 to 12½ per cent. in favor, take the market from foreign competitors?

SPECIAL NOTICE.—Patrons of the EVENING DEMOCRAT will confer a favor upon the management by promptly reporting any irregularity in delivery or bad condition of paper from improper handling.

CIRCULATION.

There are more Sedalia people regular readers of the EVENING DEMOCRAT than any other paper.

The Sedalia democratic club meets to-night at 7:30 o'clock. Let every member be present, as there will be work of importance.

DEMOCRATS cannot endorse the A. P. A. campaign. To ostracize a man because he belongs to any particular church is undemocratic, un-American and wrong. No democrat can do so and remain a democrat.

Why were well known protestant democrats refused admittance to the so-called lecture Saturday night? Do the managers recognize democracy as the natural foe of their movement? If so they have sized up the situation correctly.

LAMONTE wants to entertain the democrats of the county next Saturday and asks that the Sedalia club come in a body. Of course there are many members who cannot leave their business even for a day, but there ought to be at least two hundred who can attend the Lamonte rally.

ADMITTING the wildest claims of the republican orators as to the effect of a tariff tax, it simply increases the ability of the manufacturer to pay higher wages. It takes something else to increase the manufacturer's willingness to pay higher wages than he is compelled by supply and demand to pay his workmen.

The crowd that will visit the races in this city on the 26th and 27th will be limited alone by the carrying capacity of the railroads. The people of Central Missouri appreciate the enterprise of the association in securing Nancy Hanks, Martha Wilkes and other flyers, and they will show that appreciation by their attendance.

EX-GOVERNOR CRITTENDEN is making some pretty damaging statements as to the peculiar methods by which Warner was elected to congress in 1886. He says that he is reliably informed that ballot boxes were stolen the night after the election, and Phillips ballots

changed into Warner ballots in number sufficient to change the result and send the major to congress. The major seems to have been fortunate in politics not so much by reason of personal popularity as by having friends who would burn or destroy democratic ballots.

ANTI-WARNER REPUBLICANS.

The republican press has had a great deal to say about the "Warner democrats" with which a distorted imagination has peopled certain sections of Missouri.

They, however, are rather reticent about anti-Warner republicans of whom there are many in the state, as will be seen by the following report from Stanberry:

"The largest republican political meeting ever held in Gentry county assembled this afternoon in the park to hear Major Warner stand up for Missouri. A large part of the gathering was composed of democrats, who came out through curiosity to hear and see one of the old remnants of the Rodman-Drake constitution. The major made a pretty speech, but utterly failed to touch any of the issues of the day, and begged the people's party voters to vote for him if they could not support the ticket. He never said a word about how he was elected circuit attorney once by burned ballots, or to congress by stuffed ballots.

The commander of the G. A. R. post, an anti-Warner Republican, refused to allow the G. A. R. flag to be used, and at noon they had to borrow a democratic one from Judge Liggett. A majority of the post here are anti-Warner on account of his postoffice fight and his having refused to give his support to a G. A. R. man."

Now here are more than enough anti-Warner republicans to offset all the Warner democrats in the state, and as the campaign progresses fair-minded republicans in still greater numbers will decide to rebuke their party managers for going back to the most disreputable period of their party history for their candidate and their issues.

SENTIMENT AND CONDUCT.

In his Kansas City speech Maj. Warner expressed some charming sentiments on the subject of the protection of honest workmen from competition with convict labor, says the *Post-Dispatch*. He cited a federal law which forbids the entry of the products of foreign convict labor into any port of the United States. One would think from his speech that the major and his party stayed awake nights thinking up methods of maintaining the wages of honest workmen through protection.

One of the new industries specially fostered by the McKinley bill was that of the manufacture of pearl buttons. The pearl button industry was given the benefit of a high tariff ostensibly to create new opportunities for American labor and to protect it from the competition with the pauper labor of Europe. The republicans pointed with pride to pearl button factories as an evidence of what the republican party had done for American labor through its benign policy of protection.

A discovery was made, however, that shocked the patriotic statesmen who voted for the pearl button tariff. The gentlemen to whom the privilege of taxing the people in behalf of this industry was granted, instead of using the privilege to benefit honest American workmen, pocketed its gains and increased their profits by employing convict labor. Thus they not only taxed the earnings of honest labor but deprived it of rightful opportunities of earning wages and reduced its rate of wages by convict competition.

This is a fair sample of the republican protection of workmen over which Maj. Warner waxes eloquent. It lavishes pretty sentiments and glowing promises upon the workman to gain his vote and then hands him over to the greed of privileged monopolists who pay for their unearned advantages with slush funds.

No GOOD can come of such infamously slanderous statements as were made by the so-called lecturer in his tirade against Catholicism last Saturday night. Wholesale charges against a church are bad enough, but charges against the virtue of any class of American women are infamous. It is an abuse of the right of free speech to

make such lectures, and no movement in whose interest they are made can prosper in this country. If any reader of the DEMOCRAT has become a member of the A. P. A. we would urge him as an American citizen to get out of it and discountenance its work.

How would the protestants of Sedalia like to have their wives and daughters talked about as the so-called anti-catholic lecturer is said to have spoken of catholic ladies Saturday night? Free speech is a dear right, but it gives no man a license to slander the women of a church or a community. Such fanaticism in all ages has led to violence and bloodshed, and good citizens should stamp it with the seal of their condemnation. If persisted in it will make enemies of men who ought to be friends and neighbors, and the man who created the discord will move on to disturb other communities.

The Lewiston (Me.) *Journal* tells of a woman near that city who does all the housework for her husband and family besides teaching school five days a week and walking a round trip, each day, of five miles in getting to and from the institution of learning over which she presides. With all due regard for the sacred character of the marital vows, says an exchange, our advice would be for that woman to leave her husband to look after himself and locate the remainder of the family in the immediate vicinity of the school house.

The Catholic colony in Maryland was the first to declare for actual and real religious liberty. And yet to-day a secret order proposes to ostracize men because they belong to the Catholic church. Democrats, stamp out this spirit of intolerance. It is out of place in America. If it is proposed to say a man may not hold office because he belongs to a certain church, the next step will be to establish a certain church and declare that he shall not hold office unless he does belong to that organization.

The republicans give up all hope of carrying Indiana and are ready to admit that Illinois is a doubtful state. Missouri democrats should see to it that while the tidal wave of democracy is rising everywhere else the majority is increased in this grand old commonwealth. "Stand up for Missouri" and keep her in line with the spirit of the age.

The Cleveland column is receiving some very valuable recruits as the campaign progresses. Among these gentlemen who have packed their political grip-sacks and left the republican party are Judge Thomas M. Cooley, Judge Walter Q. Gresham and Wayne McVeagh. All rather prominent names are they not?

JUDGE GRESHAM has declared his intention to vote for Grover Cleveland for president of the United States, and the republicans and third parties unite in telling us he is one of the ablest and purest men in the union.

A Cholera Scare.

A reported outbreak of cholera at Helmetta, N. J., created much excitement in that vicinity. Investigation showed that the disease was not cholera but a violent dysentery, which is almost as severe and dangerous as cholera. Mr. Walter Willard, a prominent merchant of Jamesburg, two miles from Helmetta, says Chamberlain's colic, cholera and diarrhoea remedy has given great satisfaction in the most severe cases of dysentery. It is certainly one of the best things ever made. For sale by Aug. Fleischmann, Druggist.

A CURIOUS STORY.

The Reciprocity Treaty With San Domingo Endangered.

GERMANY IS ACTIVELY AT WORK.

Said to Have Offered a Bribe to Have the Treaty Nullified—The Favorite Nation Clause Used By European Countries Against America.

New York, Oct. 4.—A curious story about the United States and reciprocity was put in circulation in this city yesterday. The governments of Great Britain, Germany and Italy, so the story ran, had observed with a burning jealousy the great advantages which the Americans were reaping from the reciprocity treaty with San Domingo, and had entered into a common conspiracy to destroy that treaty.

Just what part Great Britain and Italy had taken or were to take in these maneuvers was not quite plain in the story as it was given out but the deeds of Germany were indisputably set forth. Germany, it appeared, had offered to Ulises Heurieux, president of San Domingo, an annual bribe of \$50,000 for life if he would declare the reciprocity treaty with the United States abrogated.

"It is true," said the Dominican consul here, "that the countries here mentioned have made a demand in San Domingo, in which they claim that under a clause to be found in former treaties each is entitled to receive all the favors from San Domingo that are or may be extended to the most favored nation."

"That being the case, San Domingo was naturally alarmed. The attitude of Germany was especially dangerous, as our tobacco trade is with Hamburg, where we were threatened with a duty that would have been fatal to our business. For England and Italy we did not care so much. Still, if we should be compelled to accede to the demands of the tripartite we would have to send all our sugar to London. For this the United States would reimpose the sugar duties. I was sent to see Secretary Foster and conferred with him on the subject and we had a long talk."

"Were you instructed to say to Secretary Foster that President Heurieux would see that the treaty was maintained if he was promised an annuity of \$75,000 a year?" was asked. "No, I wasn't," answered the consul, smiling, "and as far as I know no suggestion was ever made. I do know that the American minister to Hayti, Mr. Durham, and the German minister to the same country, have both left Port au Prince and are in conference with the president of San Domingo at the capital. Each is in communication with his own government and I have no doubt that a satisfactory way out of the present difficulty will be decided upon."

Army Officers Sentenced.

CHICAGO, Oct. 4.—Second Lieut. Marcus Maxwell, of the Fifteenth infantry, at Fort Sheridan and First Lieut. Woodridge Geary, of the Nineteenth infantry, at Fort Wayne, Mich., who were recently tried by a court martial, were found guilty of the charges preferred against them. Maxwell was sentenced to be confined within the limits of the reservation at Fort Sheridan for six months and reprimanded by Gen. Miles. Geary's sentence was that he be confined within the post for three months and be reprimanded.

Tramps in a Fight.

LAWRENCE, Kan., Oct. 4.—Five tramps engaged in a terrible fight in the bottoms just east of the city and in the fray one of them was shot through the leg. His outcries attracted the attention of a passerby and he was brought into the city for medical attendance, but while his attendant was gone for a few moments the wounded man made his escape and has not since been heard from. He is thought to be one of a notorious gang of thieves that have been plying their business in this vicinity for the past few weeks.

Quarantine Virtually Lifted.

CAMP LOW, SANDY HOOK, N. J., Oct. 4.—The quarantine over Camp Low and Camp Erbenkerben was lifted yesterday. Mrs. Donnie, the cholera patient, and Mrs. Grassner and her new born babe left here last evening for Ellis island. Maj. Sawtelle received orders last evening to relieve Past Assistant Surgeons Wadin and J. B. Stoner, and have them report to their posts of duty at Charleston, S. C., and Pittsburgh, Pa., respectively. Camp Low is virtually closed.

Swallowed Laudanum.

NEVADA, Mo., Oct. 4.—David Imler, aged 60, swallowed laudanum on the public square yesterday morning and died in a short time from the effects of the poison. He was a carpenter by trade, but was despondent from want of work. When he came down town yesterday morning he told several parties that he proposed to settle his accounts with the world. He fell in the middle of the street shortly after stating that he had swallowed the poison.

Jack Ramsey Captured.

PITTSBURGH, Pa., Oct. 4.—A Chronicle-Telegraph special from Uniontown, Pa., says: Jack Ramsey, the pal of Frank Cooley, who was killed by Sheriff McCormick's posse yesterday evening, was captured near Fair Chance this morning and is now in jail. It is believed that since the death of Cooley and the capture of Ramsey the remainder of the gang will disperse and leave the country.

Patrick Egan Returning.

NEW YORK, Oct. 4.—Mr. Patrick Ford, editor of the Irish World, received a telegram from Minister Egan, dated Colon, September 27, saying that he will be in New York Tuesday, October 4. Mr. Egan will be met by a number of friends and officers of the various Irish societies of the city on his arrival. Later in the week he will be tendered a reception by the Irish-Americans in this city.

THE IRISH VICEROY.

The Liberal Official Received in a Friendly Manner.

DUBLIN, Oct. 4.—Lord Houghton, the new viceroy of Ireland, made his public entry into Dublin yesterday and took possession of Dublin castle, which was vacated some time ago by his tory predecessor, the Earl of Zetland.

Lord Houghton was received upon his arrival by the mail packet at Kingstown by Right Hon. S. Walker, lord chancellor of Ireland; Lieut.-Col. Sir J. West Ridgeway, under secretary for Ireland, and other officers of the government. The vice regal party took a train at Kingstown and was conveyed to Westland Row, Dublin, where the procession was formed to accompany him to the castle. The streets through which the procession passed were lined with soldiers, while back of them the citizens stood in solid masses to watch the ceremonious entry of the new lord lieutenant. Lord Houghton, accompanied by a large cavalcade of military officers, rode on horseback in the procession. The crowd, while undemonstrative, showed a very friendly feeling for the young viceroy.

KANSAS SUPREME COURT.

Several Important Cases to Be Decided by the Kansas Judiciary.

TOPEKA, Kan., Oct. 4.—The October session of the July term of the supreme court of Kansas will convene to-day. There is an unusually heavy docket, which includes several interesting cases. Among them are the proceedings against several members of the Sunflower club, an organization of insurance agents who were convicted in Labette county a year ago on the charge of being parties to an insurance combination, the conviction being obtained under a section of the statute prohibiting the maintenance of trusts. The cases against the city marshal and police commissioners of Wichita, the outgrowth of the saloon licensing system in vogue there, will also be heard at this session. The cases are quo warranto proceedings to oust the defendants from office.

Postal Clerks Needing Protection.

ST. LOUIS, Oct. 4.—The railroad postal clerks are moving for the purpose of inducing the government to give them safer cars than the ones they are now obliged to work in, which are almost immediately broken into splinters when an accident of any moment occurs to the train. The situation of the postal car, next to the engine or baggage car, exposes its inmates to the greatest danger of any persons on the train. When sleeping cars go through collisions and the occupants escape all injury the postal clerks argue that the cars in which they work ought to be made as safe as the sleepers. The clerks ask that the cars they occupy shall be made of material that will not splinter in a slight crash and then burn them to death.

Death of Capt. Wall.

NEEDHAM, Mass., Oct. 4.—Capt. George F. Wall, of this town, died Saturday evening, aged 71. Capt. Wall, at the beginning of the rebellion was employed at the Watertown arsenal and discovered that some of the officers in charge and a number of men employed did not sympathize with the northern cause and tampered with the cartridges made for the service, so that when they were received at the front they were useless. Capt. Wall reported the facts to Washington and the guilty ones were removed. In this matter there are among the captain's effects letters from Abraham Lincoln, Secretary of War Stanton, Senator Charles Sumner, Henry Wilson, Gov. Andrew and other prominent men.

Rats Scattered the Poison.

WARRENSBURG, Mo., Oct. 4.—Ira Massey, a prominent citizen of Simpson township who, with the rest of his family, was poisoned some days ago, died last night. Poison had been placed about the house for rats and had been carried by the rodents over some meat of which the family afterward partook. The other members of the family were dangerously ill for a time, but are now recovering.

Pearl Button Factory.

DECATUR, Ill., Oct. 4.—Rome Richmond, of Decatur, has established a small pearl button factory in this city, and with machinery operated by an electric motor he has already made several gross of buttons and put them on cards for the trade. He uses imported shells principally, but is doing something with shells picked up along the Sangamon river.

Fatal Flames.

PORTLAND, Ore., Oct. 4.—Early this morning fire occurred in the Kamm block, a four-story brick structure, inflicting a total loss of about \$50,000. John G. Gray, a carriage maker, was burned to death and Doc Houston, a fireman, was seriously injured. The United States signal office located in the building sustained serious loss in damage to instruments.

The Champion's New Play.
ELIZABETH, N. J., Oct. 4.—Champion Jim Corbett produced his new play "Gentleman Jack" here for the first time last night. Corbett made a good appearance upon the stage. During the evening the star was presented with a number of large floral pieces. The play was a fairly good one and was well received.

Bandits at Erie, Pa.

ERIE, Pa., Oct. 4.—Four men entered the Keystone bank to-day and during a struggle one of them shot Frank V. Kepler, the assistant cashier. The men fled without securing any money, but after a hot chase all were captured. Kepler's wound is not serious.

Poet Tennyson Sick.

LONDON, Oct. 4.—Hallam Tennyson, son of Lord Tennyson, states that the condition of his father is causing considerable anxiety. He was seriously ill on Friday, Saturday and yesterday, but to-day he rallied somewhat.

BRITISH LABOR.

Stagnation in Shipbuilding and Cotton Manufacturing.

WORKERS' WAGES TO BE REDUCED.

The Young King of Spain Returns to Madrid—Voyage of a "Blackbird" Slaver—A Cargo of Gilbert Islanders—Loaded in Mexico.

LONDON, Oct. 4.—The labor outlook in the large manufacturing and shipbuilding centers of Great Britain is very threatening. A crisis is probable in the cotton trade that promises to have more widespread results than any of the previous troubles that have occurred between the masters and operatives, and in the shipbuilding trade of the Clyde only one-third of the berths are occupied and no new orders are on hand. It is said that 15,000 hands who were employed in various capacities about the yards are idle, and those who are still at work are working on short time. To make matters worse for the employees, the masters have now decided to make a general reduction in wages and have announced that engineers, ironfounders and shipbuilders will henceforth receive 10 per cent. less money for their labor than heretofore. This reduction was to take effect on October 1. The Clyde miners have also been notified that their wages will be reduced 6 pence per day on and after the 10th of the current month.

THE YOUNG KING OF SPAIN.
MADRID, Oct. 4.—Queen Regent Christina and King Alfonso arrived in Madrid yesterday from San Sebastian, where they have been sojourning for some time past. They were accompanied by other members of the royal family. Their return to the capital was made the occasion for a great demonstration at the railway station by members of the cabinet, the highest military and civil authorities and the members of the diplomatic corps, who were present to receive their majesties. The streets in the vicinity of the station and the route to the palace were crowded with people and the royal party were given a most enthusiastic welcome. The youthful king looked as though his stay at San Sebastian had greatly benefited him and his sunburned face showed he had lived much in the open air.

"BLACKBIRD" SLAVERY.
SAN FRANCISCO, Oct. 4.—Private agents received here from San Benito, Mexico, told of the arrival there of the "blackbird" steamer Montserrat with 500 Gilbert Islanders sold into almost absolute slavery. The Montserrat left Frisco nearly five months ago, having been chartered by the same people that sailed the ill-starred steam brig Tahiti. It was stated then that its cruise to British Columbia was merely a ruse, and that it was really a slaver, working under the nefarious contract system. The Montserrat had accommodations for 1,000 natives, but had difficulty in getting half that number, as the islanders had heard of the disaster to the Tahiti. All the natives were at once distributed among the coffee plantations near San Benito.

ANOTHER BEDBUG MYSTERY.

The Proprietor of a Hotel Meets His Death Having Suffered From Gasoline.
YANKEE, S. D., Oct. 4.—Charles Winchester, proprietor of a small hotel in this city, was burned to death by an explosion of gasoline. He was sprinkling gasoline on the floor of a small room to exterminate bedbugs. The room is just off the hotel kitchen and the explosive vapor generated in the room pervaded the kitchen, where a gasoline stove was burning.

The gas in the kitchen first took fire and the flames rushed to the small room. An explosion followed and a few seconds afterward Winchester ran from the hotel into the open air, every particle of his clothing burned away, his hair gone and his own flesh actually smoldering. Every particle of his body was burned to a bleeding blister and he endeavored to find relief by jumping into a tub of swill and then rolling in the dust. He had inhaled burning gasoline, and early in the evening died.

Switcheam Killed.
ST. JOSEPH, Mo., Oct. 4.—Early yesterday morning Clarence Bridgewater, a switchman employed in the Burlington yards, undertook to make a coupling, but missed. He made a second attempt and in so doing had one of his feet caught in a frog and falling down was cut in two lengthwise, his body being separated as neatly as if done with a cleave. He was unmarried.

Kansas Bankers to Meet.
TOPEKA, Kan., Oct. 4.—The annual convention of the Kansas State Bankers' association has been called by its president, Calvin Hood, of Emporia, to meet in Topeka October 19 and 20. Special interest attaches to this convention, owing to the greatly improved condition of the financial interests of the state.

Pock to Issue Another Report.
ALBANY, N. Y., Oct. 4.—Commissioner Pock will soon explode another of his booms in addition to the report recently issued. It is a continuation by which he shows the increase of wages of various branches of workmen. This table will be about twice as large as the one given out.

An English Thoroughbred Ahead.
VIENNA, Oct. 4.—Lieut.-Col. Adair von Miklos, an Austrian competitor in the Berlin-Vienna race was reported late last evening to be but sixty kilometers from Berlin. There is heavy betting that he will be in Berlin this morning and will win the first prize. He is riding the English thoroughbred "Exact."

The Wisconsin Apportionment.
MILWAUKEE, Wis., Oct. 4.—At a conference of democratic leaders held here it was decided to hold an extra session to reapportion the state next Tuesday, October 11. As soon as the supreme court formally hands down its decision the call will be issued by Gov. Peck.

FIRE AT CHICAGO.

Considerable Damage Done and a Fire Engine Destroyed.

CHICAGO, Oct. 4.—The plant of the Cary-Ogden Co., manufacturers of paint and varnish at No. 265 to 278 West Eighteenth street, was entirely destroyed by fire last night. Three small cottages close to the paint factory were also consumed and a two-story brick building adjoining the factory was badly damaged. The total loss will aggregate \$160,000 and is covered by insurance. As engine company No. 3 was crossing the Chicago, Burlington & Quincy tracks on its way to the fire the engine was run down by a locomotive and smashed to pieces. Several of the firemen were badly bruised, and Driver Henry Walbaum received a fractured skull which will prove fatal.

A SCHEME THAT FAILED.

The Dangerous Work of Greedy Farmers Put a Stop To.

OMAHA, Neb., Oct. 4.—The bold scheme of several farmers to change the course of the Missouri river by ditching across the narrows at Bellevue, Neb., where the river describes four-fifths of a circle, and thereby enrich themselves by the law of accretion, because of the land that would change to the Iowa side when the river changed its channel, has failed. C. P. Benjamin, of this city, got an inkling of the work and investigated. The result was an injunction and a sudden stoppage of the work. Had the ditch been completed 3,000 acres of land would have changed ownership and scores of families living on the line would undoubtedly have perished when the river rushed through.

QUEER STATE OF AFFAIRS.

Did George Kientz Die Before He Was Hanged on a Hook?

WICHITA, Kan., Oct. 4.—The coroner's jury found that George Kientz came to his death by hanging himself to a hook in the parlor of his home. The testimony at the inquest was contradictory and revealed a queer state of affairs. Kientz's domestic relations were unpleasant and he remained most of the time away from home. At the examination Mrs. Kientz and her two daughters stated that he hung himself to a hook only a few feet from the floor with a hammock twisted around his neck. Dr. Shultz, who was called, said that the family acted strangely and he did not believe Kientz died from strangulation. The jury thought otherwise.

Glanders at Kansas City.

KANSAS CITY, Mo., Oct. 4.—A horse belonging to Sanford Tinkham, of 3412 Highland avenue, which was afflicted with glanders was killed yesterday afternoon by an officer. The discovery of glanders was made Friday and the animal had since been quarantined. No other cases of the kind are known to exist in this city or section. In Randolph county and other places throughout the state the disease is, however, prevalent, but the officials are closely watching it.

In Favor of the Tow-sitters.

WASHINGTON, Oct. 4.—Secretary Noble has passed upon the motion for a new hearing in the West Guthrie tow-site case. It was the big case in Oklahoma, involving half the capital town, and some time ago decided in favor of the tow-site people. Cohn and Feagins, the contestants, filed a motion for a new trial, and the case was argued at length before the secretary. This quieted the title in the property concerned, so far as the interior department is concerned.

A Revoir.

WICHITA, Kan., Oct. 4.—Eleven confidence men escaped from the city jail last night by sawing off several steel bars. They were arrested during fair week and are supposed to have been at work on the bars for several nights. They were not kept in separate cells. The city jail has been occupied only a few weeks and the police are chagrined at this early delivery. Saw is supposed to have been furnished the crooks by outside friends.

Great Fire at Warrensburg.

WARRENSBURG, Mo., Oct. 4.—The electric light and power house at this place was totally destroyed by fire. The power house, which was a wooden building situated in an isolated place near Pette Springs, was burned almost before the people of this city knew it was on fire. The engines, boilers, dynamos and switchboards are destroyed beyond all repair. The loss is estimated at \$25,000. No insurance.

A MEAN MAN.

He Put a Painful Job on His Poor Little Wife.

A crawfish is constructed similarly to a lobster, but is very much smaller. His pincers operate ordinary when touched by any foreign substances and they are tight squeezers. One night recently the meanest man in Rochester procured a half-pound of crawfish and tied them up in a paper. He reached home at midnight and in the quiet of the parlor undid the package. The fish had apparently gone to sleep for the night, and to give them some animation he poured a few drops of whisky on them from a convenient bottle and then tied the creatures into his pantaloons pockets.

Soon all was quiet in his sleeping apartment and he successfully counterfeited his accustomed Scandinavian snore. Then the partner of his bosom quietly arose and proceeded to do some banking business with his trousers, which hung on their usual peg.

It is said that "Freedom" shrieked when Kosciuszko fell. Well, if she ever shrieked as did the wife when she got a couple of mad crawfish on the ends of her tapering fingers it would have sealed all the whitewash off of every ceiling in Poland. When a woman can yell so as to cause a towpath mule to fall into the canal and curdle all the milk in the neighborhood you can rest assured that, as the saying is, there is something in the air. She continued to shriek until she exhausted all the atmosphere there was in the house, by which time the crawfish got frightened and let go of their own accord.—Rochester Union.

AT FEVER HEAT.

The Choctaw Council Gathered at Tuskahoma.

ARMED FACTIONS WATCHING THINGS.

Jones Expecting to Be Counted In—Jackson Disliking to Be Counted Out—Agent Bennett Warns the Indians—Utes Troublesome.

TUSKAHOMA, I. T., Oct. 4.—For several days excitement has been at a fever heat throughout the Choctaw nation as to what would be the action of the Choctaw council which met here yesterday in regard to the gubernatorial election. Indian Agent Bennett came with a company of cavalry to aid in preserving the peace.

Last night it was learned that large bodies of armed nationals were assembling in the vicinity of the capital and Gov. Jones ordered the light horse to arrest and disarm them. Before morning forty full bloods were arrested and locked up in the capitol garret. It was reported that another band of fifty armed Indians was in camp four miles west of the capitol and were expecting large reinforcements.

Jones and Jackson, with three advisers each, met with Agent Bennett yesterday afternoon. A long discussion ensued. Jones rejected Jackson's proposition that they let the claims be arbitrated on the ground that the constitution and laws provided for the manner in which the vote should be counted. It was agreed after much discussion that both factions disarm and disband and go home. It was further agreed that when the council canvasses the votes that none but members and one or two peace officers be present.

Agent Bennett told them he was not there to tell them what to do, but to keep peace. This he would do. The government had him here for that purpose. As the Jones faction is largely in the majority there is little doubt but it will to-day or to-morrow declare him elected. This will not be satisfactory to Jackson's followers, as they claim a majority of thirty-four, but it seems that they have no remedy. Jones men claim that returns from several boxes that gave Jackson majorities were not made out according to law. There is some important work to be done at this session, among which is the division of the \$2,000,000 derived from the sale of the leased district.

INDIANS MAY GET HURT.

DENVER, Col., Oct. 4.—Gov. Routt has received intelligence from the Yampah river country that the Utes have crossed the Colorado state line and are committing depredations. The telegram which conveyed this intelligence also stated that the settlers have become impatient and bloodshed might be expected any time inasmuch as great damage was being done, and a new game was being destroyed. Gov. Routt at once wired the agency at Uintah, and also the department at Washington, that unless the Indians were returned to their reservation he would not be responsible for their safety.

A Missouri Cattle Company.

KANSAS CITY, Mo., Oct. 4.—Articles of incorporation were filed yesterday by the Empire Land & Live Stock Co. The capital stock of the company is \$400,000 which is all paid up. The stockholders are Henry B. Sanborn, of Houston, Tex., who owns 38,500 of the 40,000 shares; Thomas D. Cobbs, of Houston, Tex., and William H. Craddock, William D. Myers and Charles H. Darnall, of Kansas City. The object for which the company is formed is to purchase, own, control and sell farms and other real estate, and live stock in the state of Missouri.

Kansas National Guards.

FOR SCOTT, Kan., Oct. 4.—Under command of Col. George E. Howard, of Pittsburg, the First regiment Kansas National guards went into camp on the fair grounds in this city yesterday. There are eight companies in the regiment, namely: Company A of Olathe, B of Kansas City, C of Pittsburg, D of Parsons, E of Paola, F of Fort Scott, G of Garrett and H of Lawrence. The First regiment band of Kansas City arrived yesterday afternoon also. The regiment will begin drill to-day and will continue in camp for one week.

Populist Headquarters.

TOPEKA, Kan., Oct. 4.—A full meeting of the people's party state central committee will be held in this city to-day, at which it will be decided what rooms will be used as the committee's headquarters for remainder of the campaign. The headquarters will be removed to Topeka from Enterprise as soon as the rooms have been secured. Chairman Breidenthal arrived in the city yesterday and took up temporary headquarters at the Chesterfield.

Children Poisoned.

WICHITA, Kan., Oct. 4.—Last night at Ferrel, I. T., the last town on the Rock Island, the five children of J. B. Bailey, a railroad employe, were poisoned in some mysterious manner. Two of them died during the night and at last accounts the others were still suffering intensely in horrible convulsions. The attending physician says the symptoms are those of poisoning by strychnine, but the sufferers are too near death to offer any explanation as to what caused the fatal attack.

Ship Captain Fatally Beaten.

BENICIA, Cal., Oct. 6.—Capt. Adams of the British ship Arthur Stone was seriously injured this morning by a number of the crew who came on board the vessel after carousing on shore all night and then began firing among themselves. Capt. Adams and the first mate endeavored to separate them and were attacked. The former was fatally kicked and beaten. The mate's injuries are slight.

It is reported that Bismarck will appear in the German reichstag when it reassembles, October 22, as a bitter opponent of the present ministry. A grave crisis is expected.

FALL FESTIVITIES.

St. Louis Extends a Cordial Welcome to All.

The city of St. Louis has become famous the country over through the agency of her annual fall festivities, and from that source has gained the sobriquet of the "Carnival City of America."

For the season of 1892 all previous efforts in the line of entertainment will be eclipsed. The great St. Louis exposition threw its doors open to the public Wednesday, September 7th, and will continue to entertain thousands during a period extending over forty days. One of the chief attractions announced by the management is the engagement of Col. P. S. Gilmore and his world-renowned band, one hundred strong. The illumination by gas and electricity of the streets will extend over a larger area and be on a grander scale than any similar exhibition ever attempted in the world. The thirty-second great St. Louis Fair and Zoological Gardens,

Oct. 3rd to 8th, whose fame has been heralded broadcast, will be one of the main attractions of that week, and as has been customary for the last thirteen years, the Veiled Prophet will again appear in his favorite city, on the evening of Tuesday, October 4th. The hotel accommodations of St. Louis have been materially increased since last year and strangers are assured of hospitable treatment.

The Missouri Pacific railway and Iron Mountain Route, with their vast net-work of lines extending over the states of Missouri, Kansas, Nebraska, Colorado, Indian Territory, Arkansas, the west, south and southwest, in order to encourage travel, have made a remarkably low round trip from points on their lines to St. Louis and return during the Festivities.

For further information relative to dates of sale and limits of tickets call on or address any Missouri Pacific or Iron Mountain ticket agent, who will be pleased to furnish same.

Too Much of a Risk.

It is not unusual for colds contracted in the fall to hang on all winter. In such cases catarrh or chronic bronchitis are almost sure to result. A fifty cent bottle of Chamberlain's cough remedy will cure any cold. Can you afford to risk so much for so small an amount? This remedy is intended especially for bad colds and croup and can always be depended upon. For sale by Aug. Fleischmann.

Central Hotel.

Mrs. Mattie Douglass has opened a first-class hotel and restaurant at 204 West Main street. Everything new and clean. Meals at all hours. She asks a share of the public patronage.

Shirts to Order.

We make shirts to order. Have been for thirteen years past and have given satisfaction. Prices are right. Your order solicited.

JOHN WALMSLEY & CO.

Sicher's cafe is at present one of the coolest places in the city. Revolving fans almost bring back winter as you are served with lemonades and their famous ice creams.

Missouri River Lines Doing Well.

Chairman Midgley, of the Western Freight Association, reports that the Southwestern Missouri River roads are doing an enormous east-bound business. During the month of September the shipments of cattle from Kansas City amounted to about 6000 car loads, the heaviest movement ever known in a single month. The shipments of wheat from Kansas City during the same period amounted to upward of 10,000 car loads. All the roads are so crowded with business that they are cramped for cars with which to fill their orders, and it is largely due to this state of affairs, no doubt, that east-bound freight rates from the Missouri River continue steady.

Is a Corpse a Passenger.

Whether a live man can ride on a ticket calling for a first class passage for a coffin is the question which has confronted the passenger officials of a Chicago and Denver road, says a Chicago special. The ticket was purchased by a sister of the man, who, it was supposed, was about to become a corpse at the time the purchase was made. The man did not die, however, and as the ticket had been bought and paid for, he proposed to use it, although not, as had been expected, the occupant of a coffin. All this came into the experience of a man who has been under treatment at St. Luke's hospital in this city. Harry Knight, a young Denverite, is the individual. He had been working at the machinists' trade here and was stricken a few weeks ago with what was diagnosed as organic obstruction of the intestines. Examination showed that laparotomy would be necessary, and even if that delicate operation were performed the chances of his recovery would be one in a hundred. Dr. W. E. Cramer, the house surgeon, entertained no hopes of the patient's recovery, and doubted his powers of endurance under the scalpel. But something had to be done. The surgeon telegraphed the facts to Knight's sister in Denver. The young woman concluded the case was hopeless, and without delay bought two tickets to Chicago. She bought one for herself and one for the carriage of a casket and a human body from Chicago to Denver. On reaching St. Luke's hospital she found her brother convalescent after the laparotomy and struggling back to life again. The sister remained by his side until he had so far recovered his strength as to be able to stand the long journey to the Rockies, and they started homeward together. Miss Knight's ticket was good, but there was a discrepancy about her brother's. The conductor was nonplused, the ticket reading: "Good for the passage of one human body contained in a casket from Chicago to Denver." The "human body" referred to tendered the ticket, and the conductor did not know what to do about it. He finally decided to take the ticket and to leave the matter for settlement with the company afterward. Meantime Mr. and Miss Knight are safe at home in Denver.

Who Pays? Who Profits?

From the New York World.
Who pays the enormous campaign expenses of the republican party?

The protected manufacturers and the other beneficiaries of a high tariff.

When John Wanamaker appealed to this class four years ago he put his demand squarely upon the ground of "an insurance" upon the bounties which they enjoyed.

They responded with \$400,000 as a premium on the republican party's insurance.

When James P. Foster, president of the republican league, set out to raise a campaign fund in 1888, he sent to manufacturers, mine-owners, lumber lords and other tariff-bounty sharers his famous circular, saying: "We want money and want it at once."

The campaign upon which we are about to enter will concern more than anybody else the manufacturers of the country.

The manufacturers of Pennsylvania are more highly protected than anybody else, and make large

fortunes every year when the times are good.

These men like them elsewhere are the ones who supply the money with which the Quays, Dudleys and Martins buy elections.

Do they pay this money in order that they may increase wages? Do they yield their "fat" to the friars for the privilege of selling their products cheaper?

What do sensible voters think?

WEAVER IN THE SOUTH

His Receptions Were Excellent in All but a Few Places.

RICHMOND, Va., Oct. 4.—Gen. Weaver, candidate of the people's party for president, said to a reporter yesterday in response to a question as to his reception in the south:

"My reception was excellent with the exception of Georgia and Greensboro, N. C. In Georgia the scenes were very disgraceful, and the correction sent out by the chairman of the democratic committee is wide of the truth. The statement first sent out is correct and without coloring.

Tremendous indignation meetings have been held in various places in Georgia. The country people and ex-confederates are not to blame for the conduct in Georgia, but the organized hoodlums, and it is confined to cities. The episode in Greensboro was occasioned by young roughs of the town, and is not due in any way to good people."

To be Married.

Cards are out announcing the forthcoming marriage, on October 12th, of Dr. C. E. Fletcher, one of Sedalia's best known and most popular young professional men, to Miss Hattie Belle Trader, the accomplished daughter of Dr. and Mrs. John W. Trader. The DEMOCRAT in advance of the happy event tenders congratulations and wishes the young couple the fullest realization of their brightest dreams of future happiness.
